February 11. Box 24. George Vigue, King Street, chimney fire.

March 7. Box 23. Wm. Seltzer, Island Avenue.

We have been handicapped in the past year in responding to fire alarms. This was due to the failure of the proper working conditions of the fire alarm system. This, I believe to be caused by the switch board and storage batteries being located in the brick power house, where it is impossible to give them proper care. Plans are now under way for the removal of them to the engine house.

I would recommend that a hydrant be installed on Osborne Street, near the junction of Osborne Street and Osborne Court.. That a fire alarm box be installed on Island Avenue, near the foot bridge, that a new floor be laid in the engine house.

In closing I wish to thank the citizens in the village for the hearty co-operation shown the company.

W. EVERETT WOODMAN, *Acting Chief.*
